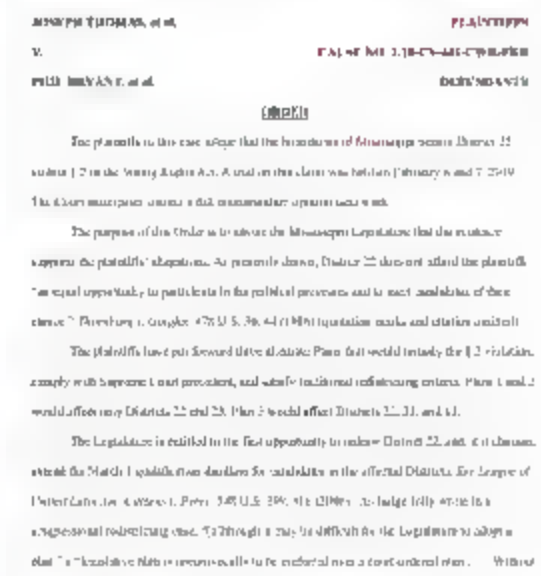
BREAKING: We secured a major voting rights victory in Mississippi. Racial gerrymandering of district lines has no place in our democracy today. Will keep fighting for #fairmaps that allow every voter's voice to be heard. @LawyersComm



JOSEPH THOMAS, et al. PLAINTIFFS
V. CAUSE NO. 3:18-CV-441-CWR-FKB
PHIL BRYANT, et al. DEFENDANTS

ORDER

The plaintiffs in this case argue that the boundaries of Mississippi's Senate District 22 violate § 2 of the Voting Rights Act. A trial on the claim was held on January 8 and 9, 2019. The Court now enters this memorandum opinion and order.

The purpose of this Order is to advise the Mississippi Legislature that the evidence supports the plaintiffs' allegations. As presently drawn, District 22 does not afford the plaintiffs "an equal opportunity to participate in the political processes and to elect candidates of their choice." Thornburg v. Gingles, 478 U.S. 30, 44 (1986) (quotation marks and citation omitted).

The plaintiffs have put forward three alternative Plans that would remedy the § 2 violation, comply with Supreme Court precedent, and satisfy traditional redistricting criteria. Plans 1 and 2 would affect only Districts 22 and 23. Plan 3 would affect Districts 22, 23, and 33.

The Legislature is entitled to the first opportunity to redraw District 22, and, of course, retains the Match Legislation two deadlines for establishing the affected Districts. See League of United Latin American Citizens v. Perry, 548 U.S. 399, 416 (2006) (Judge Billy Augustus is a congressional redistricting case. "Although it may be difficult for the Legislature to adopt a plan [a] federal court ordinarily will not be entitled to enjoin a state election. . . . Without

Judge Carlton

To the extent the defendants' answers have not already done so, they would be an appropriate case to submit a proposed order consistent with this opinion.

SO ORDERED AND ADJUDGED this the 11th day of February, 2019.

/s/ Carlton W. Reeves
UNITED STATES DISTRICT JUDGE

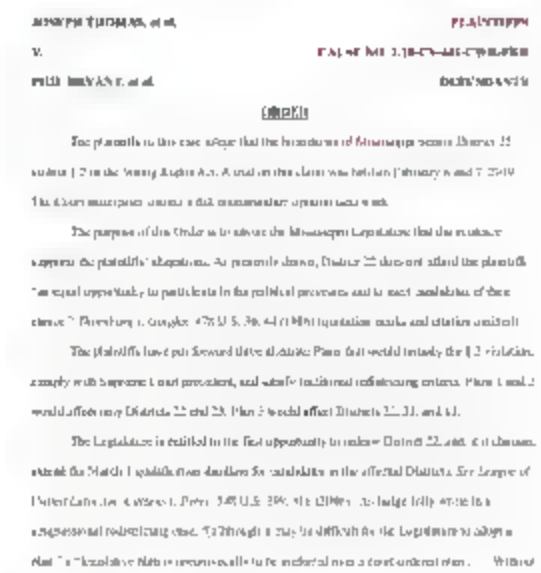
BREAKING: We secured a major voting rights victory in Mississippi. Racial gerrymandering of district lines has no place in our democracy today. Will keep fighting for #fairmaps that allow every voter's voice to be heard. @LawyersComm



ORDER

The plaintiffs in this case argue that the boundaries of Mississippi's House Districts 22 and 23 violate § 2 of the Voting Rights Act. A trial on the claim was held on January 8 and 9, 2019. The Court subsequently issued a bench announcement opinion on that same week.

The purpose of this Order is to advise the Mississippi Legislature that the evidence supports the plaintiffs' allegations. As presently drawn, Districts 22 and 23 do not afford the plaintiffs "an equal opportunity to participate in the political processes and to elect candidates of their choice." Thornburg v. Gingles, 478 U.S. 30, 44 (1986) (quotation marks and citation omitted).

The plaintiffs have put forward three alternative Plans that would remedy the § 2 violation, comply with Supreme Court precedent, and satisfy traditional redistricting criteria. Plan 1 and 2 would affect only Districts 22 and 23. Plan 3 would affect Districts 22, 23, and 64.

The Legislature is entitled to the first opportunity to redraw District 22 and, if it chooses, amend the Match Legislation two deadlines for candidates in the affected Districts. See League of United Latin American Citizens v. Perry, 548 U.S. 399, 416 (2006) (Judge Kelly's article is a congressional redistricting case. "[A]lthough it may be difficult for the Legislature to adopt a new districting plan in sufficient time to be precleared or approved by a court before the election, . . . [t]he

Judge [illegible]

To the extent the defendants' answers have not already done so, they would be an appropriate time to submit a proposed order that best suits their plans.

SO ORDERED this the 11th day of February, 2019.

ORDER

The plaintiffs in this case argue that the boundaries of Mississippi's Senate District 22 violate § 2 of the Voting Rights Act. A trial on the claim was held on January 8 and 9, 2019. The Court now enters this memorandum opinion and order.

The purpose of this Order is to advise the Mississippi Legislature that the evidence supports the plaintiffs' allegations. As presently drawn, District 22 does not afford the plaintiffs "an equal opportunity to participate in the political processes and to elect candidates of their choice." Thornburg v. Gingles, 478 U.S. 30, 44 (1986) (quotation marks and citation omitted).

The Legislature is entitled to the first opportunity to redraw District 22, and, of course, retains the Match Legislation two deadlines for establishing the affected Districts. ORDER

The plaintiffs in this case argue that the boundaries of Mississippi Senate District 22 violate § 2 of the Voting Rights Act. A trial on the claim was held on January 8 and 9, 2019. The Court now finds that the challenged district does not violate the Act.

The purpose of this Order is to advise the Mississippi Legislature that the evidence supports the plaintiffs' allegations. As previously shown, District 22 does not afford the plaintiffs "an equal opportunity to participate in the political processes and to elect candidates of their choice." Thornburg v. Gingles, 478 U.S. 30, 44 (1986) (quotation marks and citation omitted).

The plaintiffs have put forward three alternative Plans that would remedy the § 2 violation, comply with Supreme Court precedent, and satisfy traditional redistricting criteria. Plans 1 and 2 would affect only Districts 22 and 23. Plan 3 would affect Districts 22, 23, and 33.

The Legislature is entitled to the first opportunity to redraw District 22 and, if it chooses, amend the Match Legislative Districts for consistency in the affected Districts. See League of United Latin American Citizens v. Perry, 548 U.S. 399, 416 (2006) ("[I]n light of the extraordinary judicial redistricting case, it is difficult for the Legislature to adopt a new districting plan in sufficient time for the federal courts to review and implement it.

Plaintiffs' Motion for Preliminary Injunction [Doc. 4] is denied.

SO ORDERED this the 11th day of February, 2019.

ORDER

The plaintiffs in the case argue that the boundaries of Mississippi's House District 22 violate § 2 of the Voting Rights Act. A trial on the claim was held on January 4 and 7, 2019. The Court subsequently issued a bifurcation opinion last week.

The purpose of this Order is to advise the Mississippi Legislature that the evidence supports the plaintiffs' allegations. As previously shown, District 22 does not afford the plaintiffs "an equal opportunity to participate in the political processes and to elect candidates of their choice." Thornburg v. Gingles, 478 U.S. 30, 44 (1986) (quotation marks and citation omitted).

The plaintiffs have put forward three alternative Plans that would remedy the § 2 violation, comply with Supreme Court precedent, and satisfy traditional redistricting criteria. Plans 1 and 2 would affect only Districts 22 and 23. Plan 3 would affect Districts 22, 23, and 63.

The Legislature is entitled to the first opportunity to redraw District 22 and, if it chooses, amend the Match Legislation even deadlines for candidates in the affected Districts. See League of United Latin Am. Citizens v. Perry, 548 U.S. 399, 416 (2006) (opinion of Kennedy, J.) ("[I]t is a settled principle that district courts ordinarily should defer to the legislative task of redistricting. . . . ORDER

The plaintiffs in this case argue that the boundaries of Mississippi's Senate District 22 violate § 2 of the Voting Rights Act. A trial on the claim was held on February 6 and 7, 2019. The Court announced its decision from the bench on February 8.

The purpose of this Order is to advise the Mississippi Legislature that the evidence supports the plaintiffs' allegations. As presently drawn, District 22 does not afford the plaintiffs "an equal opportunity to participate in the political processes and to elect candidates of their choice." Thornburg v. Gingles, 478 U.S. 30, 44 (1986) (quotation marks and citation omitted).

The plaintiffs have put forward three alternative Plans that would remedy the § 2 violation, comply with Supreme Court precedent, and satisfy traditional redistricting criteria. Plans 1 and 2 would affect only Districts 22 and 23. Plan 3 would affect Districts 22, 23, and 33.

The Legislature is entitled to the first opportunity to redraw District 22 and, if it chooses, amend the Match Legislation to add dollars for candidates in the affected Districts. See League of United Latin American Citizens v. Perry, 548 U.S. 399, 416 (2006) (Judge Kelly's concurring opinion in a congressional redistricting case: "I thought it was very difficult for the Legislature to adopt a constitutional redistricting plan . . . [but] it is preferable for the Legislature to adopt a plan than for a federal court to do so").

It is the Legislature's responsibility to be mindful of the Court's concerns. . . . Without

In Legislature in turn." Scott v. York, 159 F. Supp. 3d 693, 711–12 (S.D. Miss. 2016) (three-judge court).

To the extent the defendants' answers have not already done so, they would be an appropriate time to make a proposal to remedy the legal violation.

SO ORDERED this the 11th day of February, 2019.

JOSEPH THOMAS, et al. PLAINTIFFS
V. CAUSE NO. 3:18-CV-441-CWR-FKB
PHIL BRYANT, et al. DEFENDANTS

ORDER

The plaintiffs in this case argue that the boundaries of Mississippi Senate Districts 22 and 23 violate § 2 of the Voting Rights Act. A trial on the claim was held on February 6 and 7, 2019. The Court now issues this memorandum opinion and order.

The purpose of this Order is to advise the Mississippi Legislature that the evidence supports the plaintiffs' allegations. As presently drawn, Districts 22 and 23 dilute the plaintiffs' "equal opportunity to participate in the political processes and to elect candidates of their choice." Thornburg v. Gingles, 478 U.S. 30, 44 (1986) (quotation marks and citation omitted).

The plaintiffs have put forward three alternative Plans that would remedy the § 2 violation, comply with Supreme Court precedent, and satisfy traditional redistricting criteria. Plan 1 and 2 would affect only Districts 22 and 23. Plan 3 would affect Districts 22, 23, and 21.

The Legislature is entitled to the first opportunity to redraw District 22 and, if it chooses, extend the March 1 qualification deadline for candidates in the affected Districts. See League of United Latin American Citizens v. Perry, 548 U.S. 399, 416 (2006) (Judge Jolly's article is a congressional redistricting case. "Although it may be difficult for the Legislature to adopt a plan [a] federal court [is] normally to be the primary forum for the first consideration. . . . Without

ORDER

The plaintiffs in the case argue that the boundaries of Mississippi's House District 22 violate § 2 of the Voting Rights Act. A trial on the claim was held on January 4 and 7, 2019. The Court subsequently issued a bench announcement opinion last week.

The purpose of this Order is to advise the Mississippi Legislature that the evidence supports the plaintiffs' allegations. As previously shown, District 22 does not afford the plaintiffs "an equal opportunity to participate in the political processes and to elect candidates of their choice." Thornburg v. Gingles, 478 U.S. 30, 44 (1986) (quotation marks and citation omitted).

The plaintiffs have put forward three alternative Plans that would remedy the § 2 violation, comply with Supreme Court precedent, and satisfy traditional redistricting criteria. Plan 1 and 2 would affect only Districts 22 and 23. Plan 3 would affect Districts 22, 23, and 63.

The Legislature is entitled to the first opportunity to redraw District 22 and, if it chooses, submit the Court's jurisdiction deadline for candidates in the affected Districts. *See League of United Latin Am. Citizens v. Perry*, 548 U.S. 399, 416 (2006) (per curiam) ("[I]n light of the risk of a congressional redistricting case, it may be difficult for the Legislature to adopt a plan [whose] provisions will be precleared in a court-ordered plan. Without

See Louisiana State Conference of NAACP v. Louisiana, 2018 WL 1032209, at *1 (M.D. La. Feb. 23, 2018) (three-judge court) (ordering Louisiana to redraw congressional districts after finding that the plaintiffs were likely to succeed on their claim that the districts were racially gerrymandered).

The Court will enter a separate Order setting a deadline for the Legislature to act and a protocol for court-ordered plans, should they be necessary.

SO ORDERED this the 11th day of February, 2019.

As previously shown, District 22 does not afford the plaintiffs "an equal opportunity to participate in the political processes and to elect candidates of their choice." Thornburg v. Gingles, 478 U.S. 30, 44 (1986) (quotation marks and citation omitted).

The plaintiffs have put forward three alternative Plans that would remedy the § 2 violation, comply with Supreme Court precedent, and satisfy traditional redistricting criteria. Plan 1 and 2 would affect only Districts 22 and 23. Plan 3 would affect Districts 22, 23, and 33.

The Legislature is entitled to the first opportunity to redraw District 22 and, if it chooses, amend the Match Legislation two deadlines for establishing the affected Districts. See League of United Latin American Citizens v. Perry, 548 U.S. 399, 416 (2006) (Scalia, J., delivering judgment of the Court in part) ("[I]t is a longstanding principle of congressional redistricting that States retain the first opportunity to adopt a plan."). The Legislature's plan is presumptively valid unless the evidence at trial establishes that it does not remedy the violation. Without

In Legislature in part, Southern Christian Leadership Conference of Alabama v. Sessions, 56 F.3d 1281, 1285 (11th Cir. 1995) (per curiam).

To the extent the defendants' answers have not already done so, they would be an appropriate time to submit a proposal for remedial legislation.

SO ORDERED this the 11th day of February, 2019.

This is Holden Matthews, the suspect behind the church arsons in Louisiana.

There are more than 150 churches in St. Landry Parish and 3 historically Black churches were singled out and burned.

Law enforcement MUST examine the racial motivation.

Hate crimes are on the rise.

The cops tied to the death of Freddie Gray did no jail time.

But the men who set fire to a car in the wake of Gray's death were sentenced to several YEARS in jail.

We value property over the loss of Black life in this country.

This is not acceptable.

INTRODUCTION

1. This action challenges Tennessee's new Third-Party Voter Registration Law ("the Law"), signed into law by Governor Bill Lee on May 2, 2019, which places onerous, unnecessary, burdensome, and unconstitutional obstacles upon people who want to help others register to vote, subjects such people to harsh civil and criminal penalties based on vague and overbroad terms and standards, all of which violate the due process clause of the Fourteenth Amendment and have a chilling effect on the exercise of fundamental First Amendment rights.

Religious liberty is under attack in America. These are the genuine threats that Americans of faith face but our government is too busy focusing on giving conservative Christians the opportunity to deny access to healthcare to people they don't like.

This is coordinated to occur concurrently with the 2020 election. The GOP did the same thing in 2004 with gay marriage to get out the vote. It's craven, vicious pandering to their base.

Leah Chase fed Freedom Riders during the Civil Rights Movement.

She fed James Meredith and put him up the night before he integrated the Univ of Mississippi.

She provided a space for whites and Blacks to strategize when other restaurants wouldn't. #RIP

Certain officials like using "fraud" as the reason for imposing restrictions that will make it harder for PoC to vote.

The biggest ballot FRAUD scandal in our time was committed by Leslie McRae Dowless who has been indicted. He is the face of fraud.

June 2019 marks 6 yrs since the Roberts Court issued a decision that's proven devastating to American democracy. The Shelby County, AL v. Holder ruling literally opened the floodgates of #VoterSuppression.

Justice Ginsburg's dissent was right.

Congress must #RestoreTheVRA now.

This little boy, Tamir Rice, was 12 yrs old when he was fatally shot twice while playing with a toy pellet gun at a park.

Instead of celebrating his 17th birthday today, his mother is fighting to keep the cop who killed him off the Cleveland police force. This is outrageous.

I thank @ava for telling the world this heart wrenching story of what it means to be Black in America, dehumanized, ignored, brutalized, & entrapped in a broken criminal justice system. #CentralParkFive

Another death.

Yimi Alexis Balderramos-Torres, 30, of Honduras died after being found unresponsive.

This marks, at least, the 25th death of an immigrant being held in ICE custody during the Trump administration.

The Constitution specifically gives the power to control the Census to Congress and Congress only. Congress then delegated part of that authority to the Sec'y of Commerce.

The president absolutely CAN'T issue an executive order mandating the citizen question on the #2020Census

NEW: MD court issues order allowing discovery to proceed. This means that as the gov't lawyers devise a "new" rationale for the citizenship question, judge will allow discovery (depos, doc. requests, etc) on the discriminatory motive underlying the administration's motive to date

July 5, 2019

RE: *Kravitz et al. v. United States Dep't of Commerce et al.*, 18-1041;
LUPE et al. v. Ross et al., 18-1570

LETTER ORDER

Dear Counsel:

The Court has received and appreciates the discovery plans submitted by both sides. It appears that while the parties agree to the parameters of the proposed schedule, Defendants take the view that discovery on the remaining equal protection and Section 1985 claims should be put on hold pending a "new" decision being reached by the Commerce Secretary. While there is some degree of logic to Defendants' position, the Court disagrees based on the unique circumstances of this case.

Plaintiffs' remaining claims are based on the premise that the genesis of the citizenship question was steeped in discriminatory motive. The discovery contemplated by the Court related to the recently discovered evidence in this case goes directly to that issue. Regardless of the justification Defendants may now find for a "new" decision, discovery related to the origins of the question will remain relevant. Given that time is of the essence, therefore, the prudent course is to proceed with discovery. As both sides acknowledge, the schedule may be adjusted as circumstances warrant.

Additionally, Defendants suggest in their filing that Plaintiffs' Rule 60(b) Motion is now moot. If Defendants wish to further litigate that issue, while conducting discovery, an appropriate motion can be filed and the Court will formally respond upon full briefing. In the meantime, in accordance with the Order being issued today, discovery shall commence.

Although informal, this is an ORDER of the Court.

50 yrs ago, Shirley Chisholm began her service as the first Black woman in Congress.

She was often frozen out by men and alienated by the feminist movement.

Chisholm's courage helped create a pathway for the 20 Black women in Congress today.

The Supreme Court is on a perilous path.

We have 5 Justices who will abandon precedent and not be faithful to the principle of stare decisis.

Justice Breyer issued a dissent that makes clear the jeopardy that we are now in. He asks "which cases the Court will overrule next"?

* * *

> It is one thing to overrule a case when it "def[ies] practical workability," when "related principles of law have so far developed as to have left the old rule no more than a remnant of abandoned doctrine," or when "facts have so changed, or come to be seen so differently, as to have robbed the old rule of significant application or justification." *Casey*, 505 U. S., at 854–855. It is far more dangerous to overrule a decision only because five Members of a later Court come to agree with earlier dissenters on a difficult legal question. The majority has surrendered to the temptation to overrule *Hall* even though it is a well-reasoned decision that has caused no serious practical problems in the four decades since we decided it. Today's decision can only cause one to wonder which cases the Court will overrule next. I respectfully dissent.

Since his death, Eric Garner's daughter — Erica Garner— became an outspoken activist against police violence. She fought every day in the hopes that she would see justice for her father. She died on 12/30/17.

Unfortunately, Obama was too laid back. Not aggressive enough. Why didn't Obama do the same? Why didn't Obama nominate a Black woman to the Supreme Court when he had the chance to do so?

The truth is that league owners and executives want black bodies to make them rich and bring home championships, but don't want them actually talking about what being a black body in America really means.

Time is of the essence. It is critical that this administration and groups across the country focus their full attention, resources and energy on ensuring a fair and accurate count in 2020.

This administration was out of time in its failed attempt to weaponize the Census.

After Trump's bombastic tweets claiming that he'd find a way around the SCOTUS decision, this victory feels good. This is a win for democracy and for people of color across the US who were targeted.

Reminder: The Trump administration is NOT above the law.

Justice Kagan issues a scathing dissent and notes that technology will only hasten the crisis of extreme partisan #gerrymandering that we face.

> The proof is in the 2010 pudding. That redistricting cycle produced some of the most extreme partisan gerrymanders in this country's history. I've already recounted the results from North Carolina and Maryland, and you'll hear even more about those. See *supra*, at 4–6; *infra*, at 19–20. But the voters in those States were not the only ones to fall prey to such districting perversions. Take Pennsylvania. In the three congressional elections occurring under the State's original districting plan (before the State Supreme Court struck it down), Democrats received between 45% and 51% of the statewide vote, but won only 5 of 18 House seats. See *League of Women Voters* v. *Pennsylvania*, ___ Pa. ___, ___, 178 A. 3d 737, 764 (2018). Or go next door to Ohio. There, in four congressional elections, Democrats tallied between 39% and 47% of the statewide vote, but never won more than 4 of 16 House seats. See *Ohio A. Philip Randolph Inst.* v. *Householder*, 373 F. Supp. 3d 978, 1074 (SD Ohio 2019). (Nor is there any reason to think that the results in those States stemmed from political geography or non-partisan districting criteria, rather than from partisan manipulation. See *infra*, at 15, 31.) And gerrymanders will only get worse (or depending on your perspective, better) as time goes on—as data becomes ever more fine-grained and data analysis techniques continue to improve. Alvin Kennard was 22 when he was sentenced to life in prison w/o the possibility of parole for stealing $50 from a bakery.

After 36 years, a judge has changed his sentence to time served.

We must end the mass incarceration of Black people.

Time is of the essence. It is critical that this administration and groups across the country focus their full attention, resources and energy on ensuring a fair and accurate count in 2020.

This administration was out of time in its failed attempt to weaponize the Census.

After Trump's bombastic tweets claiming that he'd find a way around the SCOTUS decision, this victory feels good. This is a win for democracy and for people of color across the US who were targeted.

Reminder: The Trump administration is NOT above the law.

ALERT: Trump is on the verge of making another nomination to the 11th Circuit. If confirmed, 5 of 12 of ALL judges on this appeals court would be Trump nominees.

We MUST pay attention to the rapid transformation of our nation's federal courts.

> **Leslie Proll** @LeslieProll
> It's official. It can't get any worse. 11th Circuit covers Alabama, Georgia & Florida. Its civil rights docket is huge. Think of all the voting rights cases filed in these states. Has highest % of African-American residents of any circuit. Only one black judge who could retire. twitter.com/ajccourts/stat...

This has been the GOP plan all along, to pack the courts with as many lifetime appointments as possible. They don't give a shit about anything else, to the point of not doing anything else.

This should have every American outraged

Nominees being railroaded on to the federal courts at lightning speed, many with records that show they harbor bias, and many not fully vetted. Many who refuse to acknowledge Brown v Bd as firm precedent. These are LIFETIME appointments.

However @Forbes and the 3 men who led the study try to spin this, the methodology they came up with was clearly biased against women.

This is crazy.

An Army soldier has been federally charged for circulating bombmaking instructions with a goal of targeting a major news network and other sites.

This development comes at a time when we're seeing more and more extremists infiltrating law enforcement and military

4. On March 27, 2019, the FBI received information regarding the Facebook user ID 100000714556127, belonging to JARRETT WILLIAM SMITH. SMITH was reported to have disseminated guidance on how to construct Improvised Explosive Devices (IEDs) and to have spoken about his desire to travel to Ukraine to fight with the Ukraine-based violent far-right paramilitary group, Azov Battalion.

5. JARRETT SMITH joined the U.S. Army on June 12, 2017. Following his initial entry training at Fort Benning, Georgia, SMITH proceeded to his first duty station on November 27, 2017, at Fort Bliss, Texas. SMITH serves the U.S. Army as an infantry soldier, trained in combat and tactical operations, and he presently is a private first class. SMITH transferred to Fort Riley, Kansas on July 8, 2019.

6. JARRETT SMITH is connected via social media (Facebook) - and on one occasion had an in-person meeting in El Paso, Texas – with Craig Lang. Lang has traveled to Ukraine and fought with the Right Sector, another group in Ukraine similar to the Azov Battalion, between 2017-2019. Facebook communications received by the FBI highlight Lang's mentorship to SMITH as he prepared for SMITH to join him in the fighting in Ukraine.

7. On June 23, 2016 (before SMITH enlisted in the U.S. Army), SMITH and Lang engaged in a conversation over social media indicating SMITH's desire to fight in Ukraine:

a. SMITH stated, "No former military experience, but if I cannot find a slot in Ukraine by October I'll be going into the Army…To fight is what I want to do. I'm willing to listen, learn, and train. But to work on Firearms is fine by me too."

b. Lang responded, "Alright, I'll forward you over to the guy that screens people he'll most likely add you soon […] Also as a pre-warning if you come to this unit and the government comes to shut down the unit you will be asked to fight. You may also be asked to kill certain people who become on the bad graces of certain groups."

And in doing so, the Court sidesteps the ordinary judicial process to allow the Government to implement a rule that bypassed the ordinary rulemaking process. I fear that the Court's precipitous action today risks undermining the interbranch governmental processes that encourage deliberation, public participation, and transparency.

You have to wonder why these judges are doing this when it comes to immigration. They would never have done this for Obama. You hate to think of the high court being extremely partisan. Why are they allowing Trump to skip around courts? Bad precedence.

To date, Trump has named 150 judges who have been confirmed to LIFETIME seats on the federal courts.

86% are white
77% are male

Many are radical and outside the legal mainstream. Like Steven Menashi who is currently up for Thurgood Marshall's seat on the 2nd Circuit...

Contact @GovLarryHogan in Maryland today (410-974-3901) and let him know that it's time the state does right by its HBCUs. Hogan's laughable offer is lower than what Mississippi offered 2 decades ago to resolve similar facts involving HBCUs in that state.

Mandatory arbitration clauses disproportionately harm low-income African Americans and other PoC.

Many employers use forced arbitration to block access to courts, to hide systemic wrongdoing from the public and to minimize corporate accountability

We oppose this.

BREAKING: The #SCOTUS agrees to hear abortion case involving #Louisiana law that requires any doctor performing an abortion to have admitting privileges at a nearby hospital.

This law severely restricts access to abortion, especially for low-income women of color.

Louisiana's draconian law would:
harm low-income women of color
lead to the closure of clinics
result in longer waiting times for appointments
lead to higher associated health risks

A single doctor would be left to perform abortions in the entire state.

One of the most important #CivilRights cases before the #SCOTUS now concerns Section 1981 of the Civil Rights Act of 1866

This statute was enacted to ensure newly freed Blacks could freely enter into contracts

We are fighting to protect this bedrock law

The #SCOTUS takes up the issue of unanimous verdicts.

Louisiana was the first state in the nation to depart from unanimous jury verdicts when delegates endorsed split verdicts in felony trials during the state's racist 1898 constitutional convention.

The Supreme Court must recognize that Title VII's protections extends to millions of LGBTQ people in American, especially those most often subjected to discrimination --> LGBTQ people of color.

Democracy requires that the SCOTUS respect the full scope of Title VII's protections.

By far, race and related issues were the preferred target of the information warfare campaign designed to divide the country in 2016. Evidence of the IRA's overwhelming operational emphasis on race is evident in the IRA's Facebook advertisement content (over 66 percent contained a term related to race) and targeting (locational targeting was principally aimed at African-Americans in key metropolitan areas with), its Facebook pages (one of the IRA's top-performing pages, "Blacktivist," generated 11.2 million engagements with Facebook users), its Instagram content (five of the top 10 Instagram accounts were focused on African-American issues and audiences), its Twitter content (heavily focused on hot-button issues with racial undertones, such as the NFL kneeling protests), and its YouTube

Russian operatives targeted African Americans online and used manipulation tactics to further their objectives.

6. (U) The Committee found that the IRA coopted unwitting Americans to engage in offline activities in furtherance of their objectives. The IRA's online influence operations were not constrained to the unilateral dissemination of content in the virtual realm, and its operatives were not just focused on inciting anger and provoking division on the internet. Instead, the IRA also persuaded Americans to deepen their engagement with IRA operatives. For example, the IRA targeted African-Americans over social media and attempted and succeeded in some cases to influence their targets to sign petitions, share personal information, and teach self-defense training courses.[18] In addition, posing as U.S. political activists, the IRA requested—and in some cases obtained—assistance from the Trump Campaign in procuring materials for rallies and in promoting and organizing the rallies.[19]

Russian operatives are working to sow racial discord and using tactics that are old and familiar.

In 1984, the KGB mailed fake KKK flyers to the Olympic Committees of African & Asian countries, and sent letters to Black organizations falsely claiming that Jews attacked Blacks.

> (U) The IRA's exploitation of racial tensions in an attempt to sow societal discord in the United States is not a new tactic for Russian influence operations. Rather, it is the latest incarnation of a long-standing Russian focus. Historically, the KGB's active measures program also made race a central feature of its operational targeting. As KGB archivist Vasili Mitrokhin noted: "The attempt to stir up racial tensions in the United States remained part of Service A's stock-in-trade for the remainder of the Cold War." For example, before the Los Angeles Olympics in 1984, KGB officers mailed falsified communications from the Ku Klux Klan to the Olympic committees of African and Asian countries. KGB officers also forged letters that were "sent to sixty black organizations giving fictitious details of atrocities committed by the [Jewish Defense] League against blacks."[164]

One fake Russian operative account pretended to be a Black political science major and was quoted in major outlets like BBC, USA Today, Time, Huff Post and Wired.

(U) The IRA was also successful using Twitter accounts feigning left-leaning ideological sentiment. An example cited by Laura Rosenberger in testimony to the Committee, @wokeluisa – which was still active in 2018 and had over 50,000 followers – claimed to be an African-American political science major in New York. Content produced under the guise of this persona would eventually appear "in more than two dozen news stories from outlets such as BBC, USA Today, Time, Wired, Huffington Post, and BET."[221]

Russian operatives used YouTube videos to discourage Black people from voting in the 2016 election.

This is voter suppression and it is still underway now. It is outrageous that Congress, the White House and tech are not doing everything in their power to address this threat.

> [redacted] [redacted]
> COMMITTEE SENSITIVE – RUSSIA INVESTIGATION ONLY
>
> (U) Only 25 videos posted to the IRA's YouTube channels featured election-related keywords in the title. All of the IRA's politically-oriented videos were thematically opposed to the Democrat candidate for president, Hillary Clinton. Some of the videos featured expressly voter suppressive content intended to dissuade African-American voters from participating in the 2016 presidential election, while others encouraged African-Americans to vote for Jill Stein.

So this is an epidemic now? You're saying every officer has a license to hunt and kill? You're saying every single officer wakes up every single day just waiting and hoping to kill a black person?

If this officer is guilty, then charge and punishment as he would be deserve.

I did not say that. Don't paraphrase or twist up my words. Plain and simple --> Those who use force without basis should be held accountable.

Police are almost never held accountable for the black people they kill. It's extremely rare. Needs to change.

A Fort Worth, TX cop shot and killed her thru her window as she stood peacefully and unarmed in her own home.

NEW: A court struck down a Virginia law requiring people to state their race when applying for a marriage license.

This racist requirement dated back to the days of Jim Crow and anti-miscegenation efforts.

There might be fewer unjustified police shootings today if DOJ was still in the business of investigating problematic police departments.

But Jeff Sessions largely shut that work down last Nov and phased out the use of consent decrees for reform. #SayHerName #AtatianaJefferson

Office of the Attorney General
Washington, D. C. 20530

MEMORANDUM FOR HEADS OF CIVIL LITIGATING COMPONENTS
UNITED STATES ATTORNEYS

FROM THE ATTORNEY GENERAL 11/7/18

SUBJECT Principles and Procedures for Civil Consent Decrees and Settlement Agreements with State and Local Governmental Entities

I. INTRODUCTION

In enforcing federal law, the Department of Justice ("Department") sometimes brings lawsuits against state and local governmental entities. State governments are sovereigns with special and protected roles under our constitutional order. Accordingly, the Department must ensure that its practices in such cases are in the interests of justice, bipartisan, and consistent with the impartial rule of law and fundamental constitutional principles, including federalism and democratic control and accountability.

This memorandum's purpose is to provide direction to all civil litigating components and United States Attorneys' Offices ("USAOs") concerning several important issues arising when a civil action against a state or local governmental entity is resolved by consent decree or settlement agreement. In particular, it requires that the Department provide state and local governmental entities an adequate opportunity to respond to any allegations of legal violations, requires special caution before using a consent decree to resolve disputes with state or local governmental entities, provides guidance on the limited circumstances in which such a consent decree may be appropriate, limits the terms for consent decrees and settlement agreements with state and local governmental entities, including terms requiring the use of monitors, and amends the process for the approval of these mechanisms in cases in which they are permissible.

A lynching?! 4,743 people were lynched in the US between 1882 - 1968, incl. 3,446 African Americans. Lynchings were crimes against humanity and an ugly part of our nation's history of racial violence and brutality

Sickened to see Trump's gross misappropriation of this term today

Donald J. Trump
@realDonaldTrump

So some day, if a Democrat becomes President and the Republicans win the House, even by a tiny margin, they can impeach the President, without due process or fairness or any legal rights. All Republicans must remember what they are witnessing here - a lynching. But we will WIN!

v.

KAY MANAGEMENT COMPANY, et al.,

Defendants.

COMPLAINT

Introduction

1. This action challenges Defendants' application of a criminal records screening policy that categorically bars persons with virtually any type of criminal record from living at the more than 12,000 apartments that Defendants own or manage in Virginia and Maryland. Defendants' application of this policy not only prevented the Individual Plaintiffs in this action from securing a unit of suitable size in the Pinewood Place Apartments ("Pinewood Place") in Fairfax, Virginia but, on the basis of invalid and irrelevant convictions, required them to vacate the smaller apartment they had occupied at Pinewood Place without incident for years. Because this policy disproportionally excludes Black and Hispanic applicants from access to rental housing and fails to achieve a legitimate, substantial, and non-discriminatory business interest, it violates the federal Fair Housing Act, as well as Virginia civil rights laws. To avoid the disproportionately harmful impact of such a sweeping prohibition, Defendants must thoroughly consider their criminal policy and individually assess prospective tenants to determine whether their criminal record indicates that they pose a risk to other tenants or the property.

Paul Ryan starts non-profit to purportedly "fight poverty"

Interesting.

While in Congress, Ryan pushed to cut taxes on the wealthy, cut government spending on the poor and old, and tried to kick 1.2M people off of food stamps.

Nate Madden @NateOnTheHill
In other news, former speaker Paul Ryan's starting up a nonprofit focused on "fighting poverty, increasing economic opportunities, and advancing evidence-based public policies."

Immigration enforcement budgets have ballooned from:
$350M in 1980
$1.2B in 1990
$9.1B in 2003 to
$23.7B in 2018 -- all going into what has become our border industrial complex.

Those budgets then annually funnel $2.32B back to the private sector.

We do not ask partisan status of victims of voter suppression. When we see efforts to lock out vulnerable and increasingly targeted communities, we fight.

The NAACP student chapter and others have worked hard to promote voter reg'n on campus. This suit recognizes their efforts.

The state of Texas is clearly trying to execute a black man because they are racist. An all white jury condemning a black man to death? It seems highly racist on all levels. The state is obviously not trying to right any wrongs on their part.

Broken voting machines at majority Black precinct in City of Manchester, Georgia. Machines in nearby majority white precinct are working fine.

We are pushing officials to take corrective action now. Call officials (706-672-9584) and tell them to stop the #VoterSuppression.

Mr. Tom A. Threadgill
Meriwether County Supervisor of Elections
[illegible]

Re: Inoperable Voting Machine in Majority-Black African American Precinct in Manchester, Georgia on November 5, 2019

Dear Mr. Threadgill:

I am writing on behalf of the non-partisan, Election Protection coalition regarding reports we have received through the 1-866-Our-Vote hotline that one of the three voting machines in precinct number 2 (a majority African American precinct) in the City of Manchester is not working and that no effort has yet been made to replace the inoperable machine.

Election Protection is the nation's largest non-partisan voter protection and assistance coalition. We work with partners in Georgia to help ensure that all eligible voters who wish to cast a ballot are able to do so and that the ballot will count as a vote.

It is our understanding that the City of Manchester has two polling sites for its municipal election today. One of the polling sites is precinct number 2 with a majority white population and just one machine operating among machines. The second polling site is precinct number 3 with majority African American population and it has only two of its three voting machines working today and that the inoperable machine has not yet been replaced. In that

PROTECTION

Regardless of the reason.

We are particularly concerned about the negative impact on the majority African American voters in precinct 3 who may face long lines and delays due to the fact that only two of the three voting machines are working.

Therefore, we strongly urge you to take immediate action to replace the inoperable voting machine in precinct number 3 so that voters in that precinct are not subjected to long lines and delays due to the inefficient number of machines available to efficiently serve these voters. Please confirm whether and when you intend to replace the machine. If you choose not to replace the machine, please provide us with an explanation for the disparate treatment of the majority African American voters in precinct number 3.

Thank you for your attention and cooperation.

Very truly yours,

[illegible]

Reminder—

Coretta Scott King on Jeff Sessions in 1986: "Mr. Sessions has used the awesome powers of his office in a shabby attempt to intimidate and frighten elderly black voters. For this reprehensible conduct, he should not be rewarded..."

FOR NONVIOLENT SOCIAL CHANGE, INC.
449 Auburn Avenue, N.E. Atlanta, Georgia 30312 (404) 524-1956

March 19, 1986

The Honorable Strom Thurmond, Chairman
Committee on the Judiciary
United States Senate
SD-224 Dirksen Senate Office Building
Washington, D.C. 20510

Re: Nomination of Jefferson B. Sessions
U.S. Judge, Southern District of
Alabama Hearing, March 13, 1986

Dear Senator Thurmond:

I write to express my sincere opposition to the confirmation of Jefferson B. Sessions as a federal district court judge for the Southern District of Alabama. My professional and personal roots in Alabama are deep and lasting. Anyone who has used the power of his office as United States Attorney to intimidate and chill the free exercise of the ballot by citizens should not be elevated to our courts. Mr. Sessions has used the awesome powers of his office in a shabby attempt to intimidate and frighten elderly black voters. For this reprehensible conduct, he should not be rewarded with a federal judgeship.

I regret that a long-standing commitment prevents me from appearing in person to testify against this nominee. However, I have attached a copy of my statement opposing Mr. Sessions' confirmation and I request that my statement as well as this letter be made a part of the hearing record.

I do sincerely urge you to oppose the confirmation of Mr. Sessions.

Sincerely,
Coretta Scott King

The Trump administration held 69,550 migrant children in gov't custody over the past year, enough kids to overflow a football stadium.

That's more kids detained away from their parents than any other country, despite the trauma & damage that results.

DACA enrollees are students, teachers, homeowners, lawyers, taxpayers, members of the military & more. This smear campaign as the #SCOTUS prepares to hear the case shows an administration skating on thin ice.

The Court must find Trump's termination of DACA unlawful. #HomeIsHere

Donald J. Trump
@realDonaldTrump

Many of the people in DACA, no longer very young, are far from "angels." Some are very tough, hardened criminals. President Obama said he had no legal right to sign order, but would anyway. If Supreme Court remedies with overturn, a deal will be made with Dems for them to stay!

During the 2016 election, more than 6M people were prevented from casting ballots across the criminal justice system.

It's time for this to change. States must address this injustice NOW which, in many states, dates back to Jim Crow.

Laws that impose second-class citizenship status on Americans must be opposed.

Mississippi's law is the ONLY registration requirement in the nation that applies solely to naturalized citizens. Adopted in the 1920's, the law pre-dates passage of the VRA.

Barr et al., respectfully applies for an order setting aside the injunction, either in the form of a stay pending appeal presupposing that the appeal will become moot after respondents' executions or a summary vacatur. See pp. 5, 17, infra. Further orders of this Court providing such relief in both capital and non-capital contexts.

Voter suppression is alive and well across the country, esp. since the #SCOTUS issued a devastating blow to the Voting Rights Act in Shelby v Holder.

The House Rules Comm. votes today on #HR4. This bill is critical to restoring democracy. Report here—> cha.house.gov/media/press-re …

"Voting is the right that is 'preservative of all rights, because it empowers people to elect candidates of their choice, who will then govern and legislate to enhance other rights.'"

Kristen Clarke, Lawyers' Committee for Civil Rights Under Law

In 1965, following years of suppression, discrimination, protest, and a fight for equality, started in the Civil Rights Act of 1964, President Lyndon B. Johnson signed into law the Voting Rights Act of 1965 ("Voting Rights Act"). The Voting Rights Act was enacted to address long-standing racial barriers that continue to restrict voting. "Generations and generations of citizens had been prevented from participating in certain parts of our country through intimidation and ingenious schemes of the Constitution." The Voting Rights Act protected the American people from racial discrimination in voting for nearly 50 years. In 2013, the Supreme Court of the United States ("the Court") struck down portions of the 1965 Voting Rights Act in a decision in Shelby County v. Holder, ("Shelby County"), leaving American citizens without the full force of protections and remedies to combat racial discrimination in the aftermath of the Court's decision, the days of Congress passed and delayed the Legislative Branch's critical task of protecting the right to vote for every eligible American. The Subcommittee is now chaired by Congressman Marcia L. Fudge of Ohio. The Subcommittee is charged to take Congress to the American people to engage with voters, stakeholders, officials and election administrators, and other community and experts on the state of voting rights and the administration of elections, including the American's equal and fair access to the ballot and the confidence their ballot is counted as cast.

U-Miss approves plan to relocate Confederate monument.

The monument served as a rallying point for racist mobs protesting the admission of the school's first Black student in 1962

With white supremacy surging on college campuses, these monuments must go.

There have been many bills this season but #HR4, the Voting Rights Advancement Act, is among the most consequential for African Americans and people of color.

We are witnessing intensifying #VoterSuppression efforts every day. The Senate MUST act.

The Supreme Court is on a perilous path.

We have 5 Justices who will abandon precedent and not be faithful to the principle of stare decisis.

Justice Breyer issued a dissent that makes clear the jeopardy that we are now in. He asks "which cases the Court will overrule next"?

* * *

> It is one thing to overrule a case when it "def[ies] practical workability," when "related principles of law have so far developed as to have left the old rule no more than a remnant of abandoned doctrine," or when "facts have so changed, or come to be seen so differently, as to have robbed the old rule of significant application or justification." *Casey*, 505 U. S., at 854–855. It is far more dangerous to overrule a decision only because five Members of a later Court come to agree with earlier dissenters on a difficult legal question. The majority has surrendered to the temptation to overrule *Hall* even though it is a well-reasoned decision that has caused no serious practical problems in the four decades since we decided it. Today's decision can only cause one to wonder which cases the Court will overrule next. I respectfully dissent.

A woman ran over the girl with her car because she believed she "was a Mexican."

This is what white supremacist violence looks like in America today.

DOJ's "Recent Activities" Report makes clear that they are doing NOTHING to combat voting discrimination faced by African Americans and communities of color and are solely focused on barriers faced by military voters.

Given escalating #VoterSuppression, this is shameful.

RECENT ACTIVITIES OF THE VOTING SECTION

On March 21, 2019, the Department submitted to Congress the Attorney General's 2018 annual report pursuant to the Uniformed and Overseas Citizens Absentee Voting Act.

On June 20, 2018, the court entered an agreement in *United States v. State of Wisconsin* (W.D. Wisc.). The agreement remedies violations of the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA) alleged in the Department's complaint, filed simultaneously with the proposed agreement on June 19. The complaint alleges that Wisconsin violated UOCAVA because it did not provide all of the protections of UOCAVA to those voters who are residing overseas temporarily. UOCAVA does not distinguish between voters who reside overseas but intend to return, and those voters who reside overseas for an indefinite period of time. Wisconsin state law, however, differentiated between permanent and temporarily overseas voters in terms of the protections they receive under UOCAVA. The agreement requires Wisconsin to allow temporarily overseas voters to receive their ballots electronically and utilize a Federal write-in absentee ballot vote, if necessary, like other UOCAVA voters. The agreement requires the changes to be implemented in time for the federal primary election on August 14, 2018 and the federal general election on November 6, 2018. The agreement also specifies that Defendants will take the actions necessary to ensure these UOCAVA protections in all future federal elections.

On February 15, 2018, the court entered an agreement in *United States v. State of Arizona* (D. Ariz.). The agreement remedies violations of the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA) alleged in the Department's complaint, filed simultaneously with the proposed agreement on February 14. The complaint alleges that the state violated UOCAVA because it was not able to transmit final absentee ballots to UOCAVA voters at least 45 days in advance of the February 27, 2018, special primary election in Congressional District 8. Among other things, the agreement provided additional time for receipt of UOCAVA ballots to ensure that eligible military and overseas voters will have sufficient time to vote in the special primary election. It also provided additional steps, if needed, to protect voters for the April 24, 2018, special general election. The agreement also specifies that Defendants will take the actions necessary to ensure UOCAVA compliance in future special federal elections.

Barriers faced by our uniformed & overseas voters matter. But DOJ is fully abandoning enforcement of the Voting Rights Act and turning a blind eye to voter suppression faced by communities of color.

As a former DOJ voting rights lawyer, this shows politicization of their work.

These wrongful convictions have robbed people of 22,540 yrs of freedom.

49% of those exonerated are African American.

Running elections used to be about ensuring voter access and deploying trained poll worrkers. Today it's an all-out war with local and state officials trying to ward off potential attacks.

Meanwhile, Trump turns a blind eye to these threats to democracy.

In less than 3 yrs, the Senate has confirmed 187 Trump-nominated judges to LIFETIME seats on the bench - a full 20% of the entire federal judiciary. They are overwhelmingly white, male and extremist.

These judges will be the final word on critical issues.

Glad to see Colin Kaepernick's protest and Black Lives Matter identified among the "best leadership moments" of the decade.

From the Civil Right Movement to protests of today, Black activism has always been a powerful force in moving our country forward.

Marbut believes we should ban food distribution to the homeless, says most panhandlers are just grifters preying on others, wants to criminalize sleeping on sidewalks and opposes "housing first" policy

California and New York must do something about their TREMENDOUS Homeless problems. They are setting records! If their Governors can't handle the situation, which they should be able to do very easily, they must call and "politely" ask for help. Would be so easy with competence!

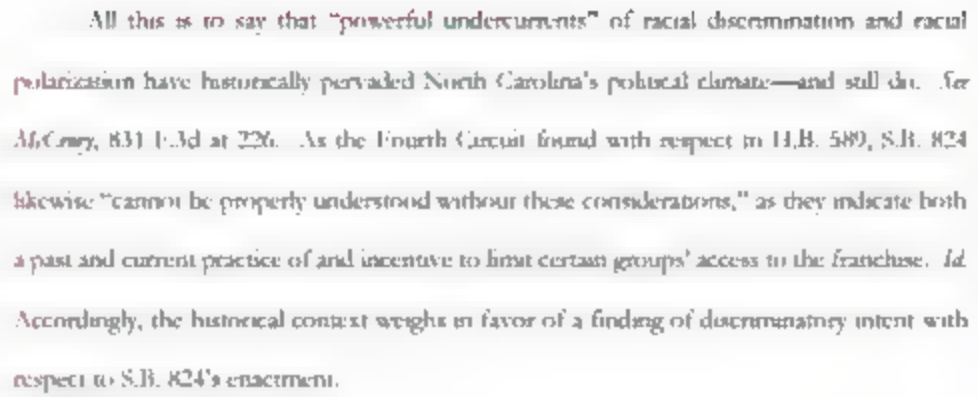
BREAKING: A federal judge just issued an injunction BLOCKING North Carolina's discriminatory #VoterID law.

Court finds the law shows discriminatory effect and was likely adopted with discriminatory purpose.

Important development as we move into the #2020election season.



All this is to say that "powerful undercurrents" of racial discrimination and racial polarization have historically pervaded North Carolina's political climate—and still do. *See McCrory*, 831 F.3d at 226. As the Fourth Circuit found with respect to H.B. 589, S.B. 824 likewise "cannot be properly understood without these considerations," as they indicate both a past and current practice of and incentive to limit certain groups' access to the franchise. *Id.* Accordingly, the historical context weighs in favor of a finding of discriminatory intent with respect to S.B. 824's enactment.

"The current chief judge of the District of Columbia Circuit has, over the past two decades, quietly volunteered as a tutor at a local elementary school, inspiring his court colleagues to join in the effort," Roberts wrote. "I am confident that many other federal judges, without fanfare or acclaim, are playing similar selfless roles

"Chief Justice Earl Warren illustrated the power of a judicial decision as a teaching tool in *Brown v. Board of Education*, the great school desegregation case," he wrote. 25 years ago, I helped organize Harvard's very first #Kwanzaa celebration.

It's principles remain just as relevant today.

On this 5th day of Kwaanza, we focus on "Nia"- Purpose, making our collective vocation the building and developing of our community.

Justice Roberts issued his end-of-the-year report where he:

•praises Merrick Garland (though he was blocked & denied a hearing)

•talks about judicial independence (as Trump destroys that w/ extremist nominees)

•lifts up Brown v Bd (while some Trump nominees failed to do so)

> to the Supreme Court, Judge Merrick Garland, who never received a hearing in the Republican-controlled Senate.
>
> "The current chief judge of the District of Columbia Circuit has, over the past two decades, quietly volunteered as a tutor at a local elementary school, inspiring his court colleagues to join in the effort," Roberts wrote. "I am confident that many other federal judges, without fanfare or acclaim, are playing similar selfless roles

"Chief Justice Earl Warren illustrated the power of a judicial decision as a teaching tool in *Brown v. Board of Education*, the great school desegregation case," he wrote. "His unanimous opinion on the most pressing issue of the era was a mere 11 pages — short enough that newspapers could publish all or almost all of it and every citizen could understand the court's rationale."

likewise "cannot be properly understood without these considerations," as they indicate both a past and current practice of and incentive to limit certain groups' access to the franchise. *Id.* Accordingly, the historical context weighs in favor of a finding of discriminatory intent with respect to S.B. 824's enactment.

North Carolina has been relentless in efforts to promote #VoterSuppression.

This is the same state that the 4th Circuit found "discriminated with almost surgical precision" and a state that engaged in recent racial gerrymandering.

4. Conclusion

In sum, Defendants have failed at this stage to demonstrate that S.B. 824 "would have been enacted without" race as a motivating factor. *See McCrory*, 831 F.3d at 221. As in *McCrory*, the continuing lack of evidence of in-person voter fraud in North Carolina casts doubt on the sincerity (if not the facial legitimacy) of the fraud and confidence justifications. The state's constitutional amendment requiring photo identification in no way absolves discriminatory actors or breaks the chain of purpose connecting S.B. 824 to its predecessor. And the effort to model S.B. 824 after South Carolina and Virginia law will only get the state so far, given the localized, "sensitive inquiry into . . . circumstantial and direct evidence of intent" required by *Arlington Heights*. *See* 429 U.S. at 564.

The expanding gap between the wealthy few and masses of poor people is simply unsustainable.

In 2018, 38.1M people lived in poverty — a rate of 11.8%.

This rate is based on the federal government's official poverty threshold... which for a family of 4 is about $25,700.

Trump disinvites #SuperBowl champs, Eagles, from White House celebration b/c some players planned not to attend.

I say thank you @Kaepernick7! You've got Trump's full attention.

@Eagles should use this time tomorrow to speak out against #PoliceBrutality & racial injustice.

THE WHITE HOUSE
Office of the Press Secretary

FOR IMMEDIATE RELEASE
JUNE 4, 2018

Statement by the President

The Philadelphia Eagles are unable to come to the White House with their full team to be celebrated tomorrow. They disagree with their President because he insists that they proudly stand for the National Anthem, hand on heart, in honor of the great men and women of our military and the people of our country. The Eagles wanted to send a smaller delegation, but the 1,000 fans planning to attend the event deserve better. These fans are still invited to the White House to be part of a different type of ceremony—one that will honor our great country, pay tribute to the heroes who fight to protect it, and loudly and proudly play the National Anthem. I will be there at 3:00 p.m. with the United States Marine Band and the United States Army Chorus to celebrate America.

Roger Goodell touches on many criminal justice problems but makes no reference to #PoliceBrutality at heart of players' protest. #TakeAKnee

time to go into the communities and talk about that. And so they really, truly understand it. They're talking about criminal justice reform, whether it's bail reform, whether it's talking about sentencing – mandatory sentencing. They're talking about changes that I think will make our communities better that there is bipartisan support for across our nation and that need focus. They're talking about what we can do to support them to effectuate that legislative change and that's, again, very, very positive. They're talking about equality issues, making sure that we're doing everything we possibly can to give people an opportunity, whether it's in education, or economic, what we can do to try to effectuate that. We believe with the players we can help them, we can support them and those are our issues, national issues, American issues, that are all important to deal with."

—NFL Commissioner Roger Goodell on his understanding of why players are protesting during the National Anthem

And this #cjreform bill does not get to heart of the #PoliceBrutality crisis.

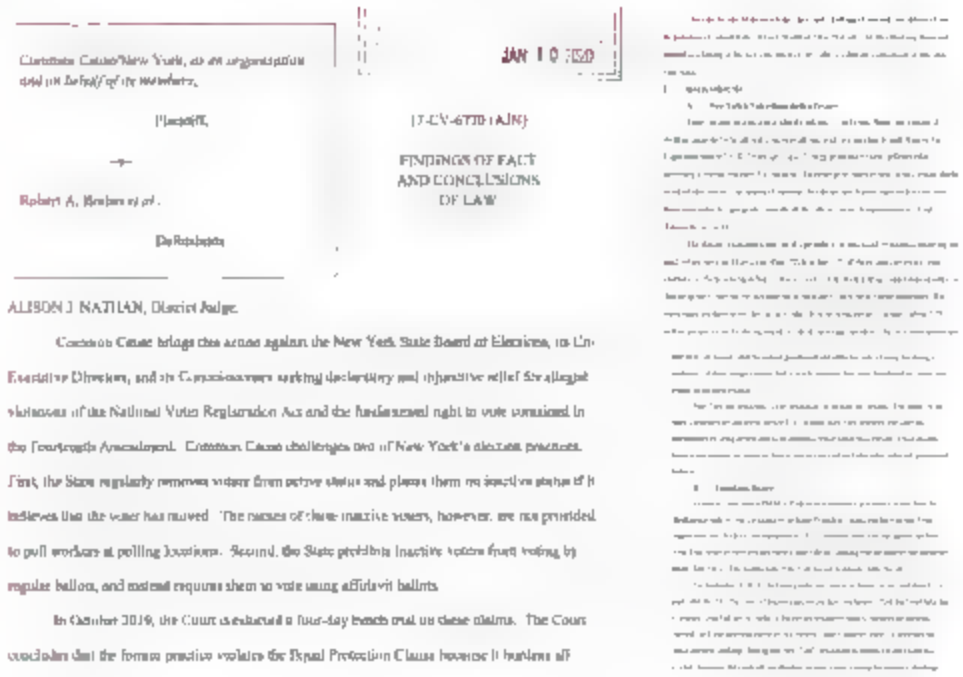
BREAKING: We just secured a major victory that will benefit over 1 million voters across New York State.

NYS must END the practice of arbitrarily designating voters as 'inactive' and excluding them from poll books on Election Day. A victory for voters! #2020Election @LawyersComm



JAN 10 2020

FINDINGS OF FACT AND CONCLUSIONS OF LAW

ALISON J. NATHAN, District Judge.

Common Cause brings this action against the New York State Board of Elections, its Executive Director, and its Commissioners seeking declaratory and injunctive relief for alleged violations of the National Voter Registration Act and the fundamental right to vote contained in the Fourteenth Amendment. Common Cause challenges two of New York's election practices. First, the State regularly removes voters from active status and places them on inactive status if it believes that the voter has moved. The names of these inactive voters, however, are not provided to poll workers at polling locations. Second, the State prohibits inactive voters from voting by regular ballots, and instead requires them to vote using affidavit ballots.

In October 2019, the Court conducted a four-day bench trial on these claims. The Court concludes that the former practice violates the Equal Protection Clause because it burdens all

P.S. 29 in Cobble Hill section of Brooklyn raised more than 1.7M last school year.

P.S. 6X in the Bronx raised about 5,800 over the same time period.

We must address how P.T.A. fundraising exacerbates race/class inequality in public school settings.

Spike Lee will be the first African American to serve as President of the Cannes Festival in its 73 year history.

This is all progress -- albeit far too slow and long overdue.

Welcome to Spike Lee as President of the Jury of the 73rd Festival de Cannes! Cannes is a natural homeland for those who (re)awaken minds. Lee's flamboyant personality is sure to shake things up. What kind of President will he be? Find out in Cannes!

Remember that because of the threat posed by gun fanatics and white supremacists who have descended upon Richmond, at least one group cancelled its event commemorating Dr. King today. This is the America that Trump built.

William Barr's statement on #MLKDay speaks of the "fair and impartial administration of justice."

If only we had an Attorney General who truly lived up to these ideals— instead we see disregard for civil rights laws, politicization of DOJ & demonization of vulnerable communities

Department of Justice

Office of Public Affairs

FOR IMMEDIATE RELEASE Monday, January 20, 2020

Statement from Attorney General William P. Barr on Martin Luther King Jr. Day

Attorney General William P. Barr issued the following statement:

Today, we honor the life and legacy of Dr. Martin Luther King, Jr. "Injustice anywhere is a threat to justice everywhere," Dr. King wrote in his famous letter while confined to a narrow cell in the Birmingham city jail. In the face of grave intolerance, Dr. King exemplified great moral and physical courage, playing a seminal role in the fight for civil rights and leading our nation to a better destiny. As the Department of Justice celebrates its sesquicentennial

Every so often, I re-read Dr. King's Letter from a Birmingham Jail. While some of the injustices may have changed, his poetic brilliance, moral clarity, and tests of conscience still reverberate today. Take a moment to reflect on his righteous call:

DOJ launches Nat'l Presidential Commission on Law Enforcement per executive order issued by Trump.

Last month, Barr said that communities that protest the police risk losing protection.

We must keep an eye on the work of this Commission.

It's important that we follow Trump's newly launched Commission on Law Enforcement. At a time when AG Barr has publicly claimed that police need not protect communities that criticize them, we should be deeply concerned about a Trump-driven agenda on policing.

It's one thing to have political disagreement but making inciteful statements at a time of increasing violence and raging extremism is absolutely reckless.

Shifty Adam Schiff is a CORRUPT POLITICIAN, and probably a very sick man. He has not paid the price, yet, for what he has done to our Country!

Trump's tweet this morning regarding a US Congressman is chilling given its context.

His statement is especially disturbing following Cesar Sayoc, who was recently sentenced to 20 years In prison for mailing pipe bombs to people seen as critical of Trump.

Good that Justice Roberts is refusing to read Rand Paul's question which is likely another attempt to out the identity of the whistleblower.

That said, why can't Roberts make other judgement calls on witnesses, evidence and Trump's improper invocation of executive privilege?

It was a fair question into the collusion of Schiff's staff with the NSC into starting this whole affair. If that involved the so-called whistleblower, so be it. Nobody stopped this whistleblower from having his privacy shot to hell:

OTD in 1865, the 13th Amend. passed Congress. It would abolish slavery if ratified by the states.

Let's use today to lift up Black abolitionists who fought tirelessly for the end of slavery: Frederick Douglass, Harriet Tubman, Sojourner Truth & Henry "Box" Brown are among a few.

The #IowaCaucus is far from racially inclusive.

The state is 90.7% white.

But the state also disenfranchises people with felony convictions for life. Blacks make up 4% of the state's population but 26% of the state's prison population.

So by your logic we should let the "war on drugs" continue? Most states are implementing a process for this, and there is precedent to follow out of CA. The problem can't continue while we all wait for each state. It needs to be implemented on a Fed level.

Alice Johnson is one person who won early release because celebrities brought her to Trump's attention. She deserved it. But there are thousands more like her in prison. We need a real pardon process that works fairly. We need real criminal justice reform. Don't be fooled.

I promised to restore hope in America. That includes the least among us. Together, let's KEEP AMERICA GREAT!

Anyone still believing this, is as culpable and complicit to the max. And should accordingly be held accountable.

Trayvon Martin was killed at age 17. Today would have been his 25th birthday.

We honor Trayvon's life by fighting for racial justice, calling out the rise in extremist violence, and pushing back against the proliferation of guns.
